ACCOUNTANTS AND CONSULTANTS

INDEPENDENT AUDITORS' REPORT

The Honorable Mayor Members of the Board of Trustees Village of Riverwoods, Illinois

Report on the Financial Statements

We have audited the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Riverwoods, Illinois (the "Village"), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Village's management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note A; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(Continued)

Auditor's Responsibility

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village, as of December 31, 2018, and the respective changes in modified cash basis financial position and, where applicable, cash flows, for the year then ended in accordance with the basis of accounting described in Note A.

Emphasis of Matters

As discussed in Note O to the financial statements, beginning net position of the governmental activities and beginning fund balances of the General Fund and the nonmajor governmental funds have been restated as a result of errors in prior years. Our opinions are not modified with respect to these matters.

As discussed in Note A-2 to the financial statements, the Village changed its method of accounting for investments in 2018, which has been applied retrospectively. Our opinions are not modified with respect to this matter.

Basis of Accounting

We draw attention to Note A to the financial statements, which describes the basis of accounting. The financial statements are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The other schedules listed in the table of contents as management's discussion and analysis, other supplementary information, supplemental data, and other statistical information, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

(Continued)

Other Matters (Continued)

Other Information (Continued)

The supplementary data is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary data is fairly stated, in all material respects, in relation to the basic financial statements as a whole on the basis of accounting described in Note A.

The managements' discussion and analysis on pages 4 through 12, and the other supplementary information and other statistical information, as listed in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Deerfield, Illinois August 22, 2019

The Village of Riverwoods (Village) presents this management discussion and analysis (MDA) of the Village's financial activities, for the fiscal year ended December 31, 2018, in accordance with the requirements of the Governmental Accounting Standards Board (GASB). The purpose of the MDA is to serve as an introduction to the modified cash basis government-wide financial statements, fund financial statements, notes to the financial statements, and remaining sections of the Village's Annual Financial Report (sometimes referred to herein as "this report").

I. FINANCIAL HIGHLIGHTS

- **Net position.** The total assets of the Village exceeded its liabilities at the close of the most recent year resulting in a net position of \$32,587,979.
- **Long-term liabilities.** Of the Village's total long-term liabilities owed to third parties at the end of the year, \$1,528,902, the amount of \$210,754 was due within one year. The Village's long-term debt consists of limited obligation special service area (SSA) bonds and a TIF Fund bond. The TIF Fund bond in the amount of \$803,000 is a debt owed to the General Fund from the TIF Fund.
- **Cash and investment balance.** The Village's cash and investment balance at the close of the most recent year was \$12,677,860 against a monthly total operating expenditure average of \$465,333.
- **Fund balance.** At the close of the most recent fiscal year, the Village's governmental funds reported combined ending fund balances of \$11,063,814.
- General fund summary. The fund balance in the General Fund increased from \$8,697,065 (as restated) to \$9,315,489 for the year ended December 31, 2018, due to an excess of revenues collected over expenditures paid of \$618,394. Of this fund balance, \$92,753 was nonspendable, \$1,020 was restricted, \$1,600,000 was assigned for purposes of capital replacements in the Sewer Fund, and the remaining fund balance, \$7,621,686, was unassigned and available to be spent at the Village's discretion.

II. OVERVIEW OF FINANCIAL STATEMENTS

The accounting standards under which this report is presented are designed to provide two perspectives of the Village's financial performance: a focus on the Village as a whole (government-wide) and a focus on the major individual funds (fund financial statements). Both perspectives (government-wide and fund financial statements) provide a broader basis upon which to compare and judge the Village's financial accountability.

Government-Wide Financial Statements

This report includes government-wide financial statements, which are presented in full on pages 13 through 15 of this report. Financial reporting presented here uses the modified cash basis of accounting. These statements are designed to provide readers with a broad overview of the Village's finances, in a manner similar to a private-sector business. These statements combine and consolidate short-term, spendable resources with capital assets and long-term obligations. Inter-fund activity is eliminated within activities of the same type, and the cost of assets with a long service life is spread out over future years so that capital expenditures are amortized (through depreciation) when the benefits are realized.

The *Statement of Net Position – Modified Cash Basis* presents information about the Village's assets and liabilities, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating. The *Statement of Activities – Modified Cash Basis* reports how the Village's net position changed during the current fiscal year. All current year revenues collected and expenses paid are included when the cash is received or paid.

An important purpose of the design of the *Statement of Activities – Modified Cash Basis* is to show the financial reliance of the Village's distinct activities or functions on revenues provided by those specific functions.

The government-wide financial statements distinguish governmental activities of the Village that are principally supported by taxes and intergovernmental revenues (such as state-shared revenues) from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include administration and general government, the police department, and public works. Business-type activities include the water and sewer utilities.

The Village's financial reporting includes only the funds of the Village (primary government). The Village is not accountable for any outside organizations; therefore, no adjustments were made to report financial information from other legally separate entities into this report.

Fund Financial Statements

The Village has three fund types: governmental funds, proprietary (enterprise) funds, and fiduciary (agency) funds. Accordingly, this report includes *Governmental Fund* financial statements, which are presented on pages 16 through 18 of this report, *Enterprise Fund* financial statements, which are presented on pages 19 through 22 of this report, and an *Agency Fund* financial statement, which is presented on page 23 of this report. The agency fund is not included in the entity-wide statements since it is not available for general Village uses.

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The Village uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the Village's most significant funds rather than the Village as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for nonmajor funds is provided in the form of combining statements in a later section of this report.

The Village's three fund types are further described below.

Governmental funds Governmental funds reported in the fund financial statements encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental fund statements present short-term fiscal accountability by focusing on the use of spendable resources and balances of spendable resources available at the end of the year, on a modified cash basis of accounting. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term. The government-wide financial statements present a long-term view, typically longer than one year.

Governmental Funds (cont'd) Comparisons between the individual governmental fund statements and the government-wide statements provide information about financing decisions and the amount invested in maintaining and improving infrastructure. These two perspectives can provide insight into the long-term impact of short-term financing decisions. Included within the basic financial statements are reconciliations between the government-wide statements and the governmental funds combining statement of assets and liabilities arising from cash transactions and the governmental funds combining statement of revenues collected, expenditures paid, and changes in fund balances, which reconcile the differences between these two perspectives.

Budgetary comparison schedules can be found in the other supplementary information and supplemental data sections of this report. These schedules demonstrate compliance with the Village's appropriation.

Proprietary funds Proprietary funds reported in the fund financial statements are for those services in which the Village charges customers a fee. In the Village, the only proprietary funds are the enterprise funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Enterprise fund services are primarily provided to customers external to the Village organization; these services in the Village consist of the water and sewer utilities. Proprietary fund statements provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statements.

Agency funds. Agency funds include the Performance Bond Fund, Escrow Fund and SSA No. 23 Gemini Road Fund. These funds are reported in the *Agency Fund Financial Statements*, but are excluded from the government-wide reporting. Resources reported in these funds are not available to fund Village programs.

Notes to the financial statements. The notes to the financial statements provide additional information that is essential to a better understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24 through 54 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain other supplementary information, supplemental data and other statistical information. Other supplementary information, supplemental data, and other statistical information can be found on pages 55 through 134 of this report.

III. GOVERNMENT-WIDE FINANCIAL ANALYSIS

The largest portion of the Village's net position reflects its investment in capital assets (i.e., land, infrastructure, buildings and improvements, vehicles, and equipment) less any related debt used to acquire those assets that is still outstanding. The Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Village's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The MDA reports a table summarizing the *Statement of Net Position – Modified Cash Basis*, which is presented in its entirety on page 13 of this report. The Village's total net position as of December 31, 2018, was \$32,587,979, of which \$18,942,617 represents governmental activities net position and \$13,645,362 represents business-type activities net position. The net position of the Village increased during 2018 by approximately 1.3%. Total assets of \$34,953,867 exceeded total liabilities of \$2,365,888 at the end of the year.

Over a multi-year period, an increase or decrease in net position can detect an improvement or deterioration in the financial position of the Village as a whole. However, one would need to evaluate nonfinancial factors, such as the condition of Village infrastructure, the satisfaction of constituents, and other information beyond the scope of this report to make a more complete assessment of whether the Village as a whole has improved.

SUMMARY STATEMENT OF NET POSITION- MODIFIED CASH BASIS

The MDA reports a table summarizing the *Statement of Activities – Modified Cash Basis*, which is presented in its entirety on pages 14 and 15 of this report. Village revenues collected (excluding transfers) from governmental activities decreased from \$4,784,230 in 2017 to \$4,766,961 in 2018, and revenues collected from business-type activities (water and sewer systems) increased from \$1,365,430 to \$1,572,833.

Village expenses paid from governmental activities increased from \$3,945,831 to \$4,299,799, while expenses paid from business-type activities increased from \$1,520,232 to \$1,616,203.

IV. ANALYSIS OF BALANCES AND TRANSACTIONS OF INDIVIDUAL FUNDS

As noted earlier, the Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

GOVERNMENTAL FUNDS. The focus of the Village's governmental funds is to provide information on nearterm inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Village's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

General Fund. The General Fund is the chief operating fund of the Village and enjoys the most diverse revenue sources of any fund in the Village, including: (i) the local share of state sales tax and state income tax, and the Village's home rule sales tax, (ii) utility and telecommunications taxes, (iii) hotel tax, and (iv) building, liquor and other license and permit fees. Revenues in the current year in the General Fund were \$4,380,483, which represented an increase of \$8,386 from the revenues of the General Fund in the prior year of \$4,372,097. At the close of the most recent fiscal year, the fund balance in the General Fund increased from \$8,697,065 (as restated) to \$9,315,459. A portion of the fund balance in the General Fund remains "assigned" (see discussion under "Reporting Fund Balances in Governmental Funds under GASB 54").

Special Revenue Funds. The special revenue funds include the Motor Fuel Tax Fund and various SSA funds that collect money for expenditures of a recurring nature for periodic maintenance and repair of streets. The Village received monthly allotments from the state of Illinois for deposit in the Motor Fuel Tax Fund that totaled \$93,818. The Village applies the balance in the Motor Fuel Tax Fund to its ongoing program of street repair and maintenance. SSA #19 issued \$300,000 in debt for infrastructure improvements within the SSA to be repaid by increased SSA #19 future levies.

Debt Service Funds. The debt service funds were maintained to track receipt of SSA taxes and debt service of the corresponding SSA bond issues.

Reporting Fund Balances in Governmental Funds under GASB 54. In 2012, the Village "assigned" \$1,800,000 of the fund balance in the General Fund to pay for necessary capital replacements to the Village's sanitary sewer system, if the financial reserves in the Sewer Fund are insufficient for such purposes. The Village took this action to acknowledge that the net position of the Sewer Fund was underfunded by this amount in relation to financial reserves which the Village determined to establish. Under the Village Replacement Reserve Policy adopted December 4, 2012, and modified in FY 2018, the Water Fund shall be managed to accumulate financial reserves of \$2 million and for the Sewer Fund a reserve of \$1 million, as a reserve to pay for the costs (anticipated and unanticipated) of capital repairs and replacements. During 2014, the Village passed a resolution to decrease the assigned fund balance to \$1,600,000.

PROPRIETARY FUNDS. The Village's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail. The Consolidated Water Fund and Sewer Fund are the enterprise funds within the Village. In these funds, the non-operating revenues collected and expenses paid include the SSA property taxes and debt service for various SSA bonds that paid for previous sewer and water system improvements. Over the years, the Village has formed SSAs that installed sewers or water mains throughout previously unserved areas of the Village. Debt service on bonds issued to pay for such projects are retired typically on 10-year amortization schedules. As of the end of 2018, there were two SSAs that for reporting purposes are included in the Consolidated Water Fund and continue to have property taxes levied for retirement of bonds.

Consolidated Water Fund. Net position of the Consolidated Water Fund at the end of the year was \$9,968,347, as compared to \$10,190,749 for the prior year. The unrestricted amount at the end of the year is \$2,261,566, an increase from \$2,212,252 in 2017. After excluding non-operating revenues, particularly from SSA taxes, the Consolidated Water Fund experienced a deficiency of operating revenues collected over operating expenses paid (and depreciation) of \$234,163 at the end of the year, as compared to a deficit of \$334,599 for the prior year. The fund's operating expenses are driven principally by the costs of water purchases under a long-term supply agreement entered into with the Village of Northbrook in 2006 under which the price of water would be held constant until 2015. However, if depreciation is excluded, operating revenues exceeded operating expenses by \$45,334.

Sewer Fund. Net position of the Sewer Fund at the end of the year was \$3,677,015, as compared to \$3,497,983 for the prior year. After excluding non-operating revenues collected, the Sewer Fund experienced an excess of operating revenues collected over operating expenses paid (and depreciation) of \$178,847 at the end of the year, as compared to an excess of \$168,205 in the prior year. The Village has committed a portion of the fund balance in the General Fund to pay for certain capital replacements (see discussion under "Reporting Fund Balances in Governmental Funds under GASB 54"). The Village's sewer system interconnects with Lake County mains. Lake County charges fees to Village residents for transmission and treatment services. Under a long-term intergovernmental agreement with the Village signed in 2008, Lake County also performs routine maintenance of the Village's sewer system, while the Village remains responsible for performing and paying for capital repairs. Under this agreement, residents receive quarterly a single sewer bill from Lake County. Lake County deducts a portion of the user charges to pay for Lake County's charges and then remits the balance to the Village. The Village's share of user fees is recorded in a replacement account in the Sewer Fund to pay for future capital replacements.

V. GENERAL FUND BUDGETARY HIGHLIGHTS

The budget numbers as reported for the General Fund in summary form on page 57 and in further detail on pages 61-67 of this report are taken from the Village's appropriations ordinance, which is designed to provide ample spending authority for contingent events, which often do not occur. The General Fund is the largest fund as measured by financial assets and is the primary source of funds for nonrecurring repairs or capital expenses (except to the extent of borrowed funds) which might be incurred, among other purposes, for repair and replacements of the Village's water system, sanitary sewer system, streets and culverts. The fund balance in the General Fund increased from \$8,697,065 at the beginning of 2018 (as restated) to \$9,315,459 at the end of 2018. Other than the amount "assigned" as described above and amounts reported as nonspendable or restricted, the remaining fund balance in the General Fund, \$7,621,686, was unassigned and available to be spent at the Village's discretion.

VI. DESCRIPTION OF SIGNIFICANT CAPITAL ASSET AND LONG-TERM DEBT ACTIVITY

The Village issued \$300,000 in bonds in 2018 to finance the costs of improvements in SSA #19 to be repaid by residents of that SSA. The Village previously financed certain SSA projects by issuing SSA bonds in various prior years (see Note E in the Notes to the Financial Statements). These bonds are payable solely out of SSA taxes.

Please see Notes D and E of this report for information concerning the Village's capital assets and long-term debt. The Village's long-term capital needs include repairs and replacements of its water system, sanitary sewer system, streets, bike paths and related drainage, public buildings, passive and active recreation areas and maintenance of its woodlands.

The Village formed a tax increment finance district in 2013 and adopted tax increment allocation financing. Under the ordinances establishing the TIF, the Village may issue obligations repayable from the incremental property tax revenues received from taxable property in the TIF project area. In 2015, the Village authorized an advance from the General Fund to the TIF Fund in the amount of \$803,000 for the purchase of a piece of property in the TIF District. The advance will be paid back by future increment or sale of the property for development. Development proposals are being evaluated for certain properties within this district.

The Village held public hearings for the establishment of a second TIF, adjacent to and east of existing TIF #1, and subsequently approved the TIF #2 establishment ordinances in January 2019. TIF #2 is intended to enhance the development potential of the commercial properties within the district including increased access and repair and replacement of infrastructure.

The Village applied for and received notice in early 2019 of the successful award of an OSLAD (Open Space Land and Development) grant from the State in the amount of \$330,000. This grant will be used to develop the Flatwoods Heritage Center at the Village Hall for community use, including ecological education, community spaces, woodland restoration and recreation activities.

VII. FACTORS WHICH MAY HAVE A SIGNIFICANT EFFECT ON FINANCIAL POSITION

The Village's population was 3,660 per the official 2010 census. The median price of homes sold in Riverwoods in 2018 was \$627,700. The Village is primarily a residential community. Its financial health stems from the beauty of the area and its attractive properties. The Village is a home rule community by referendum. The Village has funded the increasing cost of operations including police services almost entirely through non-property tax revenues. Operating expenses to pay for Village expenses (other than police services) have been maintained at stable levels. The Village has opportunities and challenges stemming from development pressures affecting the Milwaukee Avenue corridor, issues confronting the retail shopping properties in the Village, and the potential improvement of the Deerfield Road corridor in the Village. The Village intends to invest necessary resources in planning and implementing strategies to safeguard the character of the Village.

In June, the Village received notice that a commercial establishment had left the Village. This establishment was responsible for a substantial amount of the total sales tax revenue received in the Village. The full effect of the reduction will be realized in fiscal year 2019. The Village has started discussion at the Board level to adjust the level of its non-sales tax revenues, including the property tax levy, to maintain a balanced operating budget. Also, the Village entered into an agreement in early 2019 with Azavar Audit Solutions to investigate and ensure that the Village is obtaining all revenues it is entitled to as to its utility, telecommunications and sales taxes.

Under its home rule authority, the Village receives a home rule sales tax at a rate or 1.0%.

The Village has been reviewing capital needs and intends to periodically review and update its reserve fund policy for setting goals to increase the current assets and liquidity of the Consolidated Water Fund and Sewer Fund. In conjunction with such policy, the Village Board may elect to take formal action that would cause the fund balance within the General Fund to be reported as assigned or committed for various capital needs.

The Village intends for the current assets in the Consolidated Water Fund and Sewer Fund to be maintained at a level that will permit each fund to be self-sustaining without continually exerting pressure on the General Fund to absorb the costs for water and sewer system repairs. As part of this review, it was determined in FY 2018 that the Sewer Fund reserve could be reduced from the prior target of \$2.0 million to \$1.0 million which is the approximate current level. As such, both the Consolidated Water and Sewer funds are in balance with their respective target level and the rates are being monitored and adjusted to maintain these balances, anticipating future operating and capital expenditures. During FY 2018 water rates were increased by \$0.88/1,000 gallons to keep pace with a similar increase in wholesale water cost.

VIII. CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide the Village's citizens, taxpayers, customers, investors, and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Mayor, 300 Portwine Road, Riverwoods, Illinois 60015, or call 847-945-3990.

RECONCILIATION OF THE COMBINING STATEMENT OF REVENUES COLLECTED, EXPENDITURES PAID, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES - MODIFIED CASH BASIS For the Year Ended December 31, 2018

Net change in fund balances - total governmental funds	\$	715,470
Amounts reported for governmental activities in the statement of activities are different because	:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded net capital outlay in the current period.		(121,446)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of government funds.		(126,862)
Change in net position of governmental activities	\$	467,162

December 31, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Riverwoods, Illinois (the Village), have been prepared in conformity with the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America (GAAP), as applied to government units. The modified cash basis of accounting is a method that is acceptable under Illinois state statutes. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below.

1. <u>Reporting Entity</u>

The Village is located in Lake County, Illinois, and was incorporated on December 14, 1959. The Village is governed by an elected Mayor and Board of Trustees. The Board of Trustees maintains final responsibility for all personnel, budgetary, taxing, and debt matters.

The Village includes all funds of its operations that are controlled by or dependent upon the Village, as determined on a basis of financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will, and fiscal dependency. The accompanying financial statements include only those funds of the Village, as there are no organizations for which it has financial accountability.

The Village is also not included as a component unit in any other governmental reporting entity, as defined by GASB pronouncements.

2. Accounting Change

The Village changed its method of valuing its investments in 2018 from cost basis to fair value. Management believes that this accounting change provides better information for the users of the accompanying financial statements. The effect of the change has been applied retrospectively and reduced beginning fund balance in the General Fund and investments by \$97,732, as of January 1, 2018. Additionally, the government-wide-governmental activities, beginning net position, and investments were reduced by \$97,732 as of January 1, 2018.

3. Fund Accounting

The accounts of the Village are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

Funds are classified into the following categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types".

December 31, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Fund Accounting (Continued)

Governmental funds are used to account for all or most of the Village's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the payment of bond principal and interest (debt service funds), and the acquisition or construction of capital assets (capital projects funds). The General Fund is used to account for all activities of the general government not accounted for in some other fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of income is necessary or useful to sound financial administration. Enterprise (proprietary) funds provide goods or services from such activities to outside parties.

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Village. Agency funds are used to account for assets that the Village holds on behalf of others, as their agent.

4. Government-Wide and Fund Financial Statements

The government-wide modified cash basis financial statements (i.e. the statement of net position - modified cash basis and the statement of activities - modified cash basis) report information on all the nonfiduciary activities of the Village. The effect of interfund activity has been eliminated from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues, while business-type activities normally are supported by user fees for the provision of water and sewerage services.

The statement of activities - modified cash basis demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) amounts paid by recipient of goods or services offered by the program and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the modified-cash basis of accounting.

Separate financial statements are provided for governmental funds, enterprise (proprietary) funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide modified cash basis financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated in the fund financial statements, and reported separately in the supplementary financial information.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Government-Wide and Fund Financial Statements (Continued)

The Village reports the following major governmental funds:

The *General Fund* is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *TIF Fund* accounts for operations associated with the Village's Milwaukee/Deerfield Redevelopment Project Area (RPA) Tax Incremental Financing (TIF) District.

The Village reports the following major enterprise (proprietary) funds:

The *Consolidated Water Fund* accounts for the provision of water services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing, and billing and collection.

The *Sewer Fund* accounts for the provision of sewerage services to the residents of the Village and operation of the sewer infrastructure. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing, and billing and collection.

5. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the modified-cash basis of accounting.

The governmental funds financial statements are prepared using the modified-cash basis of accounting. The modified-cash basis of accounting omits recognition of certain revenues and the related assets, such as taxes receivable, until received rather than earned. Also, certain expenditures and the related liabilities, such as accounts payable, accrued items, pension liabilities, and other postemployment benefits are recognized when paid rather than when the obligation is incurred. The financial statements reflect assets and liabilities arising from cash transactions, revenues collected, and expenditures paid. The modified cash basis of accounting is a basis of accounting principles generally accepted in the United States of America.

Enterprise (proprietary) funds distinguish operating revenues collected and expenses paid from nonoperating items. Operating revenues collected and expenses paid generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Consolidated Water enterprise fund and of the Sewer enterprise fund are charges to customers for sales and services. The Village also recognizes as operating revenue collected the portion of tap-on fees intended to recover the cost of connecting new customers to the system. Operating expenses paid for enterprise funds include the cost of sales and services and administrative expenses. All revenues collected and expenses paid not meeting this definition (except depreciation on capital assets) are reported as nonoperating revenues collected and expenses paid.

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

December 31, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Appropriations

The Village appropriates on the modified cash basis of accounting. The appropriation ordinance, which is the legal authority to spend, was passed on March 20, 2018, and was amended, for the Motor Fuel Tax Fund, on April 17, 2018. All appropriations lapse at the fiscal year-end.

7. Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, deposits in interest-bearing and noninterest-bearing checking accounts, money market accounts, and certificates of deposit with original maturities of three months or less from the date of acquisition.

8. <u>Investments</u>

Investments are stated at fair value. Changes in fair value are included in investment income.

9. Interfund Receivables and Payables

Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which the transactions are executed.

10. Prepaid items

Certain payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both the government-wise and fund financial statements. The cost of prepaid items is recorded as expenditures when consumed rather than when purchased. Reported prepaid expenditures are equally offset by fund balance reserves, which indicate they do not constitute "available spendable resources", even though they are a component of current assets.

11. Land Held for Resale

The Village values its land held for resale, which it intends to sell in the future to commercial developers, at cost, adjusted for impairment. The Village determined that there were no significant changes in local property values subsequent to the date of acquisition. Future valuations are subject to market conditions and could significantly differ from current carrying value.

December 31, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

12. Capital Assets

Capital assets, which include land, construction in progress, buildings and improvements, equipment, vehicles, and infrastructure assets (e.g. roads, storm sewers, and similar items), are reported in the government-wide modified cash basis financial statements. Capital assets are defined by the Village as assets with an initial, individual cost of more than \$2,500 and an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of the donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Depreciation of capital assets is provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Buildings and improvements	50 years
Office equipment	5 - 10 years
Infrastructure	20 - 50 years
Vehicles	5 years
Water/sewer systems *	10 - 50 years

* Including pumping stations and reservoirs, water tower, water mains, water meters, and sewers.

Construction in progress is stated at cost and includes engineering and design costs incurred for planned construction. No provision for depreciation is made on construction in progress until the asset is completed and placed in service.

December 31, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

13. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, longterm debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from actual proceeds received, and losses on refunding are reported as debt service expenditures paid.

14. Fund Balance

The governmental funds report five components of fund balance: nonspendable, restricted, committed, assigned, and unassigned.

- a. *Nonspendable* includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The nonspendable in form criteria includes items that are not expected to be converted to cash. The Village reports nonspendable fund balances of \$92,753 in the General Fund, relating to prepaid items, and \$795,742 in the TIF Fund, relating to land held for resale.
- b. *Restricted* refers to amounts that are subject to outside restrictions such as creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through enabling legislation. Special revenue funds are by definition restricted for those specified purposes.
- c. *Committed* refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Village's highest level of decision-making authority (the Board of Trustees). The Board of Trustees commits fund balances by passing a resolution. Amounts committed cannot be used for any purpose unless the Village removes or changes the specific use by taking the same type of formal action it employed to previously commit those funds. The Village does not have any committed fund balances at December 31, 2018.
- d. *Assigned* refers to amounts that are constrained by the Village's intent to be used for a specific purpose, but are neither restricted nor committed. Intent may be expressed by the Board of Trustees or the individual the Board of Trustees delegates the authority to assign amounts to be used for specific purposes. The Board of Trustees has not delegated this authority to an individual. The Village established a fund balance assignment of \$1,600,000 in the General Fund, for the purpose of paying for necessary capital replacements to the Village's sanitary sewer system.

December 31, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

14. Fund Balance (Continued)

e. *Unassigned* - refers to all spendable amounts not contained in the other four classifications described above. In funds other than the General Fund, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally they act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

15. <u>Restricted Net Position</u>

For the government-wide modified cash basis financial statements, net position is reported as restricted when constraints placed on net position are either: (1) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments, (2) imposed by law through constitutional provisions, or (3) imposed by enabling legislation. All of the Village's restricted net position was a result of enabling legislation.

When both restricted and unrestricted net resources are available for use, it is the Village's policy to use restricted resources first, and then unrestricted resources, as they are needed.

16. Pensions

For purposes of measuring the disclosure for the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plan and additions to/deductions from the pension plan's fiduciary net position have been determined on the same basis as they are reported by the pension plan. Investments are stated at fair value.

17. Interfund Transactions

Quasi-external transactions are accounted for as revenues collected, expenditures paid, or expenses paid. Transactions that constitute reimbursements to a fund for expenditures/expenses paid initially from it, that are properly applicable to another fund, are recorded as expenditures/expenses paid in the reimbursing fund and as reductions of expenditures/expenses paid in the fund that is reimbursed. All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers.

December 31, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

18. Property Taxes

The Village must file its tax levy resolution by the last Tuesday in December of each year. The tax levy resolution was approved by the Board on December 5, 2017. The Village's property tax is levied each year on all taxable real property located in the Village and it becomes a lien on the property on January 1 of that tax year. The owner of real property on January 1 (the lien date) in any year is liable for taxes of that year. The District's annual property tax levy is subject to two statutory limitations: individual fund rate ceilings and the Property Tax Extension Limitation Law (PTELL).

The County Clerk adds the Equalized Assessed Valuation of all real property in the Village to the valuation of property assessed directly by the state (to which the Equalization Factor is not applied) to arrive at the base amount (the Assessment Base) used to calculate the annual tax rates, as described above. The Equalized Assessed Valuation for the extension for the 2017 tax levy was \$376,735,393.

Property taxes are collected by the Lake County Collector/Treasurer, who remits to the Village its share of collections. Taxes levied in one year become due and payable in two equal installments: the first due on June 1 and the second due on September 1. Property taxes are normally collected by the Village within 60 days of the respective installment dates.

19. Fair Value Measurements

Current accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1

Level 2

Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Village has the ability to access.

Inputs to the valuation methodology include the following:

- * Quoted prices for similar assets or liabilities in active markets;
- * Quoted prices for identical or similar assets or liabilities in inactive markets;
- * Inputs other than quoted prices that are observable for the asset or liability;
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

19. Fair Value Measurements (Continued)

Level 2 (Continued)	If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Village's investments measured at fair value.

U.S. Treasury Securities, U.S. Government Agency Obligations, municipal bonds, and negotiable certificates of deposit: Valued based on matrix pricing models, maximizing the use of observable inputs for similar securities.

Corporate bonds: Valued at closing price on the active market on which the asset is traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Village believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

20. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues collected and expenditures paid during the reporting period. Actual results could differ from those estimates.

Village of Riverwoods, Illinois NOTES TO THE FINANCIAL STATEMENTS December 31, 2018

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. <u>Explanation of certain differences between the governmental funds combining statement of revenues collected,</u> <u>expenditures paid, and changes in fund balances and the government-wide statement of activities - modified</u> <u>basis</u>

The governmental funds statement of revenues collected, expenditures paid, and changes in fund balances includes a reconciliation between the net change in fund balances - total governmental funds and changes in net position - governmental activities as reported in the government-wide statement of activities - modified cash basis. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this difference are as follows:

Capital outlay	\$ 133,282
Loss on disposals	(21,673)
Depreciation expense	 (233,055)
Net adjustment to decrease net change in fund balances - total	
governmental funds to arrive at change in net position of governmental	
activities	\$ (121,446)

Another element of that reconciliation explains that "the issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of government funds." The details of this difference are as follows:

Proceeds from issuance of special service area bonds Principal repayments - special service area bonds	\$ (300,000) 173,138
Net adjustment to decrease net change in fund balances - total governmental funds to arrive at change in net position of governmental activities	\$ (126,862)

NOTE C - DEPOSITS AND INVESTMENTS

The Village maintains a cash pool that is available for use by all funds. Each fund's portion of this pool is included in cash and cash equivalents on the governmental funds combining statement of assets and liabilities arising from cash transactions, or the enterprise funds combining statement of net position - modified cash basis. In addition, deposits are separately held by several of the Village's funds.

Village of Riverwoods, Illinois NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

The Village's investment policy is in line with state statutes. The investments that the Village may purchase are limited by Illinois law to the following: (1) securities that are fully guaranteed by the U.S. government as to principal and interest; (2) certain U.S. government agency securities; (3) interest-bearing savings accounts, interest-bearing certificates of deposit or time deposits or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act; (4) short-term discount obligations of corporations organized in the United States with assets exceeding \$500,000,000; (5) interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation, or school district; (6) fully collateralized repurchase agreements; (7) the State Treasurer's Illinois and Prime Funds; and (8) money market mutual funds and certain other instruments.

At December 31, 2018, the Village's deposits and investments consisted of the following:

	-	Governmental Activities	Business-Type Activities	 Agency Fund	 Total
Cash and cash equivalents Investments	\$	1,208,106 \$ 9,591,591	218,163 1,660,000	\$ 315,631	\$ 1,741,900 11,251,591
	\$	10,799,697 \$	1,878,163	\$ 315,631	\$ 12,993,491

For disclosure purposes, this amount is segregated into the following components:

	-	Total
Cash on hand	\$	500
Deposits with financial institutions *		1,918,388
The Illinois Funds		73,012
Other investments	_	11,001,591
	\$_	12,993,491

* Includes amounts held in demand and savings accounts, and non-negotiable certificates of deposit, which are valued at cost.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

1. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. The Village's investment policy limits investment maturities as a means of managing its exposure to fair value losses arising from increased interest rates. The objective is to maintain a core portfolio with short maturities. A periodic review of the investment portfolio is performed to ensure performance is consistent with the safety, liquidity, rate of return, diversification, and overall performance the Village requires. Maturity information on other investments is shown in the table below.

		Fair		Maturity	Years)	
Investment Type	-	Value		Less Than 1		1 - 3
U.S. Treasury Note	\$	881,683	\$	94,608	\$	787,075
Federal Home Loan Bank		507,751		-		507,751
Corporate bonds		1,413,502		423,767		989,735
Municipal bonds		707,920		497,039		210,881
Negotiable certificates of deposit	_	7,490,735		2,111,173		5,379,562
	\$	11,001,591	\$	3,126,587	\$	7,875,004

The following investments are measured at net asset value (NAV):

		Unfunded Commitments	Redemption Frequency	Redemption Notice Period
The Illinois Funds	\$ 73,012	N/A	Daily	1 day

2. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments in commercial paper, corporate bonds and mutual funds to the top two ratings issued by nationally recognized statistical rating organizations (NRSROs). The Village's investment policy authorizes investments in any type of security as permitted by State statute. As of December 31, 2018, the Village's other investments had ratings with their applicable rating agency as follows:

	Moody's	Standard
	Investor	& Poor's
U.S. Treasury Notes	AAA	Not available
American Express Credit Corp.	A2	A-
Federal Home Loan Bank	AAA	AA+
Florida State Board of Admin Fin Corp	AA3	AA
Goldman Sachs Group Inc.	A3	BBB+
NY City Transitional Finance Authority	AA1	AAA
Rosemont IL GO Corp Purpose Bonds	A2	AA
Wisconsin State General Fund	AA2	AA-

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

2. <u>Credit Risk</u> (Continued)

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company. Investments in the Illinois Funds are rated AAAm and are valued at Illinois Funds' share price, which is the price for which the investment can be sold.

3. Concentration of Credit Risk

It is the policy of the Village to diversify its investment portfolio. Investments shall be diversified to eliminate the risk of loss resulting in an overconcentration in a security, maturity, issuer, or class of securities.

4. Custodial Credit Risk

With respect to deposits, custodial credit risk is the risk that, in the event of a bank failure, the Village's deposits may not be returned to it. The Village's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. At December 31, 2018, the bank balances of the Village's deposits with financial institutions totaled \$1,719,530, of which \$483,320 was uninsured and uncollateralized.

With respect to investments, custodial credit risk is the risk that, in the event of a failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Village's investment policy limits the exposure to investment custodial credit risk by diversifying its investment portfolio.

5. Fair Value Measurement of Investments

The Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The Village's investments in corporate bonds are considered Level 1 investments as of December 31, 2018. All of the Village's remaining investments are considered Level 2 investments as of December 31, 2018.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE D - CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2018, was as follows:

1. <u>Governmental</u>	-	Beginning Balance *		Increases		Decreases		Ending Balance

3. <u>TIF Note</u>

The Village issued an \$803,000 Tax Increment Allocation Revenue Note, Series 2015, dated December 16, 2015, between the General Fund and the TIF Fund. The Note matures on December 15, 2035. Interest is payable annually at 4%. The Note is payable from incremental tax revenues generated by the Milwaukee/Deerfield TIF District, which are first used to reimburse the Village for any administrative or defense costs, and next any redevelopment costs, then interest expense, with any remaining increments used to pay down principal.

Village of Riverwoods, Illinois NOTES TO THE FINANCIAL STATEMENTS

December 31, 2012

NOTE I - JOINT VENTURES

1. Solid Waste Agency of Lake County (SWALCO)

The Village is a member of the Solid Waste Agency of Lake County (the "Agency") which consists of 43 municipalities, Great Lakes Naval Training Center, and Lake County. The Agency is a municipal corporation and public body politic established pursuant to the Illinois Intergovernmental Cooperation Act (the Act). The Agency is empowered under the Act to plan, construct, finance, operate, and maintain a solid waste disposal system to serve its members.

The members form a contiguous geographic service area which is located in Lake County. Under the Agency agreement, additional members may join the Agency upon the approval of each member.

The Agency is governed by a Board of Directors which consists of one appointed mayor, president, trustee, or chief administrative officer from each member municipality. Each Director has an equal vote. The Board of Directors determines the policies of the Agency, makes all appropriations, approves contracts, adopts resolutions providing for the issuance of bonds or notes by the Agency, adopts by-laws, rules, and regulations, and exercises such powers and performs such duties as may be prescribed in the Agency agreement or the by-laws.

Complete financial statements are available from the Solid Waste Agency of Lake County, 1311 N. Estes Street, Gurnee, Illinois 60031.

2. Northeastern Illinois Regional Crime Laboratory (NIRCL)

The Village is a member of the Northeastern Illinois Regional Crime Laboratory (the Laboratory). Each of the more than 50 members of the Laboratory are assessed annual fees based on their population, and assessments are due in May of each year. The Laboratory is organized as a tax-exempt organization qualifying under Internal Revenue Code Section 501(c)(3). The Village contributed \$7,879 to the Laboratory during 2018.

Complete financial statements are available from the Northern Illinois Police Crime Laboratory, 1000 Butterfield Road, Suite 1009, Vernon Hills, Illinois 60061.

Village of Riverwoods, Illinois NOTES TO THE FINANCIAL STATEMENTS

December 31, 2012

<u>NOTE I</u> - <u>JOINT VENTURES</u> (Continued)

3. Northern Suburban Special Recreation Association (NSSRA)

The Village, along with twelve other governments, has entered into a joint agreement to provide cooperative recreational programs and other activities for handicapped and impaired individuals. Each partner agency provides funding based on a two-part formula that includes that partner's relative share of the aggregate equalized valuation and that partner's relative share of the aggregate gross population. The Village contributed \$65,548 to NSSRA during the year ended December 31, 2018.

The Village does not have a direct financial interest in NSSRA; therefore, its investment therein is not reported within the financial statements. Upon dissolution of NSSRA, the assets, if any, shall be divided among the members in accordance with an equitable formula as determined by a unanimous vote of the Board of Directors of NSSRA.

Complete financial statements for the Association can be obtained from NSSRA's administrative offices at 3105 MacArthur Blvd., Northbrook, Illinois 60062.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE J - ILLINOIS MUNICIPAL RETIREMENT FUND

The following information related to total pension liability, net pension liability, deferred outflows of resources, and deferred inflows of resources, is included for disclosure purposes only. The Village's financial statements, which are reported on a modified cash basis, do not include these items.

Plan Description

The Village's defined benefit pension plan for regular employees provides retirement and disability benefits, postretirement increases, and death benefits to plan members and beneficiaries. The Village's plan is managed with the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the <u>Benefits Provided</u> section below. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. That report is available for download at www.imrf.org.

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier I benefits. Tier I employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier I employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier I, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier II benefits. For Tier II employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier II, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE J - ILLINOIS MUNICIPAL RETIREMENT FUND (Continued)

Employees Covered by Benefit Terms

As of December 31, 2017, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	9
Inactive plan members entitled to but not yet receiving benefits	6
Active plan members	11
Total	26

Contributions

As set by statute, the Village's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Village's annual contribution rate for calendar year 2018 was 11.02%. For the year ended December 31, 2018 the Village contributed \$131,090 to the plan. The Village also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The Village's net pension liability was measured as of December 31, 2017. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE J - ILLINOIS MUNICIPAL RETIREMENT FUND (Continued)

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31,

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market Value of Assets
Price Inflation	2.50%
Salary Increases	3.39% to 14.25%
Investment Rate of Return	7.50%
Retirement Age	Experience-based table of rates, specific to the type of eligibility condition, last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016.
Mortality	For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that was applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
Long-term Expected Rate of	The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-
Return	estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE J - ILLINOIS MUNICIPAL RETIREMENT FUND (Continued)

Actuarial Assumptions (Continued)

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	37%	6.85%
International Equity	18%	6.75%
Fixed Income	28%	3.00%
Real Estate	9%	5.75%
Alternative Investments	7%	2.65-7.35%
Cash Equivalents	1%	2.25%
Total	100%	

Single Discount Rate

A Single Discount Rate of 7.50% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- a. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- b. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.31%, and the resulting single discount rate is 7.50%.

NOTES TO THE FINANCIAL STATEMENTS

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the plan's net pension liability (asset), calculated using a Single Discount Rate of 7.50%, as well as what the plan's net pension liability (asset) would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher than the current rate:

		Current			
		1% Lower		Discount	1% Higher
	_	(6.50%)	F	Rate (7.50%)	(8.50%)
Net pension liability (asset)	\$	655,867	\$	265,905 \$	(65,382)

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE J - ILLINOIS MUNICIPAL RETIREMENT FUND (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2018 the Village reported pension expense of \$121,730. At December 31, 2018, the Village reported deferred outflows and deferred inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources		Deferred Inflows of Resources
Deferred Amounts to be Recognized in Pension	_		_	
Expense in Future Periods				
Differences between expected and actual experience	\$	6,665	\$	9,481
Change of assumptions		875		85,128
Net difference between projected and actual earnings on				
pension plan investments	_	87,539		222,533
Total deferred amounts to be recognized in pension expense in the future periods (disclosure only)		95,079		317,142
Tuture periods (disclosure only)	-)5,077		517,142
Pension contributions made subsequent to the measurement date	-	131,090		
Total deferred amounts related to pensions	\$	226,169	=	317,142

The Village disclosed \$131,090 as deferred outflows of resources related to pensions resulting from Village contributions subsequent to the measurement date that will be disclosed as a reduction of the net pension liability in the reporting year ended December 31, 2019.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE J - ILLINOIS MUNICIPAL RETIREMENT FUND (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Other amounts disclosed as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	N	et Deferred	
Year Ended]	nflows of	
December 31,]	Resources	
2019	\$	44,459	
2020		53,478	
2021	68,492		
2022		55,634	
2023		-	
Thereafter		-	
Total	\$	222,063	

NOTE K - SOCIAL SECURITY/MEDICARE

Employees not qualifying for coverage under the Illinois Municipal Retirement Fund are considered "nonparticipating employees." These employees and those qualifying for coverage under the Illinois Municipal Retirement Fund are covered under Social Security/Medicare. The Village paid the total required contribution for the current fiscal year.

NOTE L - RISK MANAGEMENT

The Village is exposed to various risks related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; and natural disasters. For all claims, settlement amounts have not exceeded insurance in the current or three prior years.

The Village is a member of the Illinois Counties Risk Management Trust (ICRMT), a joint risk management pool through which property, general liability, automobile liability, law enforcement coverage, equipment breakdown coverage, comprehensive crime coverage, public officials' and workers' compensation and employers' liability coverage is provided in excess of specified limits for the members, acting as a single insurable unit.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE M - TAX ABATEMENT AGREEMENT

The Village entered into an intergovernmental agreement with the Village of Deerfield whereby the Village of Deerfield agreed to deannex and permit the Village of Riverwoods to annex certain property ("subject property") for which a plan for redevelopment of a restaurant has been submitted to the Village of Riverwoods. Under terms of the agreement, the Village of Riverwoods will pay the Village of Deerfield fifty percent of the property taxes levied and collected on the subject property commencing with the 2017 property taxes levied in 2018, and fifty percent of the sales tax revenue collected from the restaurant or any other business located on the subject property for a ten-year period commencing with the first day of the first full month after the restaurant opens for business. The agreement with the Village of Deerfield terminates on January 31, 2029. The Village has not yet been required to make any payments under this agreement.

NOTE N - CONTINGENCIES

1. Grants

Amounts received from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures paid which may be disallowed by the grantor cannot be determined at this time, although the Village expects such amounts, if any, to be immaterial.

2. Litigation

The Village is not involved in any significant litigation that would materially affect the balances reported at December 31, 2018. With regard to other pending matters, management has determined that the eventual outcome and related liability, if any, are not determinable at this time. No provision has been made in the accompanying financial statements for settlement costs.

NOTE O - RESTATEMENTS

In prior years, disposals of capital assets occurred but were not properly recorded. As a result of these errors, capital assets and beginning net position of the governmental activities as of January 1, 2018 was restated and decreased by \$377,773.

In prior years, expenditures were charged to the Motor Fuel Tax Fund, a nonmajor governmental fund, which should have been charged to the General Fund. As a result of these errors, cash and beginning fund balances as of January 1, 2018 were restated and decreased by \$154,932 in the General Fund and increased by \$154,932 in the Motor Fuel Tax Fund.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2018

NOTE P - SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 22, 2019, the date that these financial statements were available to be issued. Management has determined that no events or transactions, other than those events noted below, have occurred subsequent to the balance sheet date that require disclosure in the financial statements.

1. TIF District

In January, 2019, the Village established a second Tax Increment Financing district, the Deerfield Road Redevelopment Project Area.

Village of Riverwoods, Illinois NOTE TO THE OTHER SUPPLEMENTARY INFORMATION For the Year Ended December 31, 2018

1. LEGAL COMPLIANCE AND ACCOUNTABILITY - APPROPRIATIONS

All departments of the Village submit budget requests to the Mayor so that an appropriation ordinance may be prepared. The appropriation ordinance is prepared by fund and includes requested appropriations for the next fiscal year. All annual appropriations lapse at the end of the fiscal year.

The proposed appropriation ordinance is presented to the Board of Trustees for review. The Board of Trustees holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the appropriations ordinance. The appropriation ordinance was approved by the Board of Trustees on March 20, 2018.

The Mayor is authorized to transfer appropriated amounts between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Trustees.

The appropriations may be amended by the Board of Trustees. On April 17, 2018, the Board of Trustees approved a supplemental appropriation for the Motor Fuel Tax Fund.

Expenditures may not legally exceed appropriations at the fund level. There were no funds with excess expenditures over appropriations.

2. <u>SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS USED IN THE CALCULATION</u> <u>OF THE 2017 IMRF CONTRIBUTION RATE*</u>

Valuation Date:

Notes

Actuarially determined contribution rates are calculated as of December 31 each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Village of Riverwoods, Illinois NOTE TO THE OTHER SUPPLEMENTARY INFORMATION For the Year Ended December 31, 2018

2. <u>SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS USED IN THE CALCULATION</u> <u>OF THE 2017 IMRF CONTRIBUTION RATE*</u> (Continued)

Methods and Assumptions Used to Determine the 2017 Contribution Rate:

Actuarial Cost Method Amortization Method Remaining Amortization Period	Aggregate Entry Age Normal Level Percentage of Payroll, Closed Non-Taxing bodies: 10-year rolling period. Taxing bodies (Regular, SLEP, and ECO groups): 26-year closed period. Early Retirement Incentive Plan liabilities: a period up to 10 years
Asset Valuation Method	selected by the Employer upon adoption of ERI. 5-year smoothed market; 20% corridor
Wage Growth	3.50%
Price Inflation	2.75% - approximate; no explicit price inflation assumption is used in this valuation.
Salary Increases	3.75% to 14.50%, including inflation
Investment Rate of Return	7.50%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 calculation pursuant to an experience study of the period 2011-2013.
Mortality	For non-disabled retirees, an IMRF mortality table was used with fully generational projections scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 bisabled for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
Other Information:	

Notes

There were no benefit changes during the year.

* Based on Valuation Assumptions used in the December 31, 2015 actuarial valuation.
